Q1

October 25, 2026

1 Information Sources

- Google Research:
  - Reason: Google is a leading company in AI research.
- Hugging Face
  - Reason: Community of AI enthusiasts.
- NVIDIA Tech Blog
  - Reason: Nvidia is another one of the leading companies in AI research.
- Hacker News
  - Reason: Daily news on a variety of technologies.
- Last Week in AI
  - Reason: Unbiased almost-weekly AI-specific news.

```

[1]:

Currently trying to run a local LLM on my system (a quantized qwen3.8 flash model) but having some trouble setting it up with hermes so the goal is to use a local LLM with hermes-agent to do this but if I can't get it to work then I'll be using Claude.

AI use disclaimer: Claude helped me write the graphviz script to generate this diagram
